- Choisir un mode de sauvegarde (points to Séquentiel/Simultané buttons)

Nom	Source	Destination	Type	Etat	Nb Fichiers	Fichiers Restants
Test2	D:\test\F_2	E:\Demo	Complete	Inactif	0	0
Test3	D:\test\F_3	E:\Demo	Differentielle	Inactif	0	0
Test4	D:\test\F_4	E:\Demo	Complete	Inactif	0	0
Test5	D:\test\F_5	E:\Demo	Complete	Inactif	0	0
Test1	D:\test\F_1	E:\Demo	Complete	Inactif	0	0

Launched by Prosoft

## User Documentation Version 2.0

The screenshot shows the EasySave application window. The title bar reads "EasySave". The interface includes a form for creating backup tasks, a list of existing tasks, and control buttons. Annotations with arrows point to various elements:

- Type a name for your backup work**: Points to the "Name" input field.
- Browse source folder path**: Points to the "Source" input field and its browse button (...).
- Browse destination folder path**: Points to the "Destination" input field and its browse button (...).
- Choose backup type**: Points to the "Type" dropdown menu.
- Fill in with file extension**: Points to the "Encryption" input field.
- Select a backup work you want to delete or launch**: Points to the list of backup tasks.
- Click here to change language**: Points to the language icon (speech bubble with 'A' and '支').
- Click here to add a backup work**: Points to the "Add" button.
- Click here to launch a backup work**: Points to the "Launch" button.
- Click here to delete a backup work**: Points to the "Delete" button.
- Click here to exit the application**: Points to the "Exit" button.
- Choose backup mode**: Points to the "One By one" and "Simultaneous" buttons.

The backup tasks list is as follows:

Name	Source	Destination	Type	State	Nb Files	Remaining Files
Test2	D:\test\F_2	E:\Demo	Complete	Inactif	0	0
Test3	D:\test\F_3	E:\Demo	Differentielle	Inactif	0	0
Test4	D:\test\F_4	E:\Demo	Complete	Inactif	0	0
Test5	D:\test\F_5	E:\Demo	Complete	Inactif	0	0
Test1	D:\test\F_1	E:\Demo	Complete	Inactif	0	0

At the bottom, it says "Launched by S Prosoft".
